Quick Winch™ Load Securing Technology Close-Out Special

QWP 1001
Permanent Ratchet Drive
(6 pack)

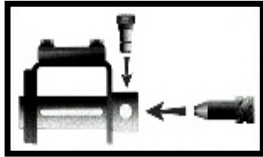

\$43.36

QWP 1001B
Permanent Ratchet Drive
(Bulk)

\$7.23

An option for those who prefer to permanently convert their winches to the QUICK WINCH load securing system is the Permanent Ratchet Drive. Designed for simple weld-in installation. This permanent insert has a carefully engineered offset collar that permits automatic on-axis positioning on the latch and pawl end. This allows the driver to secure the load safely using the MEGA TORK Ratchet/Winch Bar.

QWP 1002
Portable Ratchet Drive
\$41.86

The Portable Ratchet Drive is simple in design, yet revolutionary in use. This simple adapter inserts into the drive side of standard winches, transforming them into state-of-the-art winches ready for use with the QUICK WINCH MEGA TORK Ratchet/Winch Bar.

The 30" long heat-treated chrome vanadium bar is rated at 500 ft/lbs and comes equipped with non-slip, cushioned grips for improved comfort and control in all kinds of weather. With a few simple turns of the MEGA TORK, the load is secured. The tapered end can be used, if desired, in winch drive holes, making the MEGA TORK the ultimate ratchet/winch bar tool.

QWP 2001
MEGA TORK Ratchet/Winch Bar
\$86.86

QWP 3001
REEL QUICK Strap Winder
\$28.07

This lightweight, durable product coils straps quickly from either end, without the mess. Because it is portable, you don't have to drag straps to the winder; the winder goes where you need it. In many cases, the straps never have to touch the ground since they can be rewound right off the load. And you can wrap a 30-ft strap in about 15 seconds!

QUICK WINCH Multi Band Restraints are heavy-duty, jumbo-sized bands specifically designed to help you store your straps without the risk of unraveling or becoming tangled. Drivers have found a variety of other ways to use these convenient storage organizers.
