PRESET PLUS®

The most advanced wheel hub in the industry, the PreSet Plus hub assembly saves time and money with simplified installation, high performance, and low maintenance.

CMT10086808B (TP Parrell Spindle)

\$310

CMT10086805B (TN Tapered Spindle)

\$290

PreSet Plus Bearing Spacer

ConMet's precision-machined spacer controls the spacing between the bearings, eliminating the need for manual adjustment. The induction-hardened ends ensure consistent contact between the spacer and bearings.

Long-Life Bearings

Held to tighter tolerances than the industry standard, ConMet tapered roller bearings are engineered for optimized contact and reduced stress concentration, resulting in better rolling contact and less friction.

PreSet Plus Spindle Nut

ConMet's patented integrated nut system significantly improves wheel end clamp load, makes installation easier, aids in removal of the hub, and provides improved safety features.

Extended Life Wheel Seal

ConMet premium wheel seals withstand harsh road conditions, poor weather, and frequent braking, playing a vital role in the overall protection of the hub.

Magnetic Fill Plug and Easy Access Fill Hole

A fill hole is available on PreSet Plus drive and trailer hubs for quick and easy lubrication, while a standard magnetic fill plug helps with inspection of lubricant.

PREMIUM WHEEL SEALS

FEATURES & BENEFITS

- Highly-saturated nitrile (HNBR) hub and spindle interface for superior resistance to abrasion and wear, as well as improved heat aging
- Low-friction plastic bumper avoids internal heat generation
- Multi-zone labyrinth dirt exclusion with multiple dirt exclusion lips
- Thick gauge steel helps stand up to the pressures applied during installation
